Editor's Note

Since 1995, the China Council for the Promotion of International Trade (CCPIT), has compiled and printed the Chinese and English bilingual annual report of *Fairs and Exhibitions in China*, and published information about major economic and trade exhibitions to be held in China in that year.

The CCPIT Information Center (China Trade Promotion Information Technology Co., Ltd.) is responsible for the compilation of the *Fairs and Exhibitions in China* 2018 (hereinafter referred to as "the book"). To help readers better understand and use the book, please follow the details below.

Ⅰ. Scope of Fair and Exhibitions Data

The book has collected information about 2,069 valid economic and trade exhibition projects, which will take place in about 100 cities across 32 provinces, autonomous regions and municipalities as well as the Hong Kong and Macao Special Administrative Regions of China in 2018 (the deadline for information collection is February 28, 2018). Fairs and exhibitions in this book refer to economic and trade exhibitions, excluding other public performances and events in the fields of culture, arts, festivals and talent-building. Project data include the name, time and venue, host & organizer, display content and contact information of the exhibitions. Readers can search information by the host city or by the industry.

Ⅱ. Source of Data

The acquisition of data in this book mainly comes from CCPIT local sub-councils and industrial sub-councils, exhibition hosts and organizers, exhibition halls and official media information (online and printed media).

Ⅲ. Limitation and Accuracy

Due to time limit, by the time for the book to be published, for some exhibitions, whether they will be held or not has yet to be determined. For other exhibitions, the time and venue are yet to be fixed. Therefore, exhibition projects listed in this book do not cover all economic and trade exhibitions in the country.

Additionally, the Editorial Board has conducted cross check of information about exhibition projects through various means, such as internet, telephone and e-mail, but due to various factors, the book is unable to update all the changes of information such as date, venue and contact information during the preparation of exhibitions, and even the alteration, cancellation or addition of exhibition projects. Therefore, while carrying out business activities by using the book, users should directly contact the host and organizer of an exhibition and verify relevant information, and take responsibility for any consequences that may occur. The Editorial Board will no longer make further explanations and updates for the book.

Ⅳ. Download and Search

Since this year, the book is made available for both the printed version and the electronic version, and open to online real-time searching. The download webpage will be launched on CCPIT official website (www.ccpit.org), CCPIT official WeChat account, and www.tradeinvest.cn.

For further questions or cooperation intentions, please contact the CCPIT Information Center (China Trade Promotion Information Technology Co., Ltd.). Telephone: +86-10-88217959, 88217954.
